Profile: Indesign is an engineering design services firm that has a proven track record of helping companies design and develop new electronic devices. Our engineering staff has extensive experience in product development and can assist with issues such as regulatory compliance, limiting the amount of time to implement a new technology into a device, and even preparing a product design for manufacturing. Our engineering disciplines consist of Electrical/Circuit design, Software/Firmware design, Mechanical design, human Factors design, and Testing/Validation with a strong emphasis on products utilizing embedded microprocessors and DSPs. We also have a well-defined ISO 9001-certified development process which lays the ground work for on-time, within budget, product delivery.

Profile: The Sturgill Law Firm primarily represents individuals and small to medium businesses regarding Business law from start to finish, which includes corporate formation, contracts, labor and employment law, and collections. We help employers stay focused on their business while dealing with the legal issues of the company. Estate planning is a growing focus of the firm as many family businesses prepare for succession planning to assure their family's business in the future. As well, many individuals and families seek to protect their assets from unforeseen catastrophic events, unwanted federal and state estate taxation and to have the full power and control over their own wealth during their lifetime and final directions and instruction on how it is used for the future.
